

WOODWARD ACADEMY

ESTABLISHED 1900

Dear Parents:

Woodward Academy has selected Taggart's Driving School to provide a summer Teenage Driver Education Program. The program will consist of 30 hours of classroom and 6 hours of private, individual, behind-the-wheel training. This is the program that insurance companies are required (under state law) to provide a 10% discount for insurance premiums (or 20% if the student has a "B" average or higher). Additionally, completion of this program will provide a direct \$150.00 tax credit from the State of Georgia.

The tuition for the complete package program will be \$465.00 per student, which is a substantial reduction from the tuition charged students who attend class at Taggart's classroom locations. The tuition can be paid on the first day of class by check, made payable to Taggart's Driving School, or in cash. The instructor will provide a receipt.

A learner's permit is required for the behind-the-wheel portion only. Individual driving lessons, which are usually scheduled as two 3-hour lessons, begin when the student is picked up at school, home or another location. All training vehicles are equipped with the exclusive Taggart's two steering wheels, two brakes, and two gas pedals system.

Taggart's will provide the use of the "Drive Right Textbook" and all other training materials. The student must provide a notebook and a pen or pencil. To enroll, call Taggart's directly at 770-934-2144. The office is open Monday through Friday from 8:30 a.m. until 6:00 p.m. Taggart's telephone counselors can answer any specific questions about the program. You may also read about the program on the web at www.taggartsdrivingschool.com.

The classroom portion will be taught on these dates: July 22 – 26 from 9:00 am – 3:30 pm in room H230 in Brewster Hall.

Best regards,

Dr. Jonathan Merrill
Upper School Principal
